

ONLINE TRAINING

Online OEM training that provides results.

> Comprehensive training available when you are.

Training is one of the most valuable services available when purchasing new Pharmaworks equipment, especially if you are new to the industry. Skip the generic training programs and go straight to content that provides results for operators and technicians.

FEATURES AND BENEFITS

- Learn the basics and advanced machine concepts at your own pace.
- Training programs specific to each model of Pharmaworks equipment.
- Advanced user management and data privacy.
- Support straight from Pharmaworks.
- Interactive exercises and quizzes.
- Less reading and more listening with fully narrated content.
- Request a demo to learn more.

Comprehensive - The online training program is perfect for operator and technician training. No one knows our equipment like we do. All training content was created by our in-house professionals.

Courses and Modules - Participate in training specific to each piece of Pharmaworks equipment. Each machine course is separated by modules that cover individual machine stations.

Learn the Basics - Grow with each lesson starting with a basic introduction for your equipment so you can identify all parts of the equipment.

Delve Deeper - Once you have the basics down, each module covers an individual station providing setup, operation, troubleshooting, and maintenance information.

Testing and Certification - Make sure participants are grasping concepts and ideas. All lessons are reinforced throughout the course by interactive exercises and quizzes. Only once a user passes the final quiz are they awarded a certificate of completion.

User Management - Once purchased, invite and manage your own personnel. Managers can track user progress and completion.
